

## PARTNERSHIP

7 partners from 7 countries participate in this project:

-  Universidad Nacional de Educación a Distancia (UNED) (Spain)
-  Pixel (Italy)
-  University of Crete (Greece)
-  University of Groningen (Netherlands)
-  University of Hradec Králové (Czech Republic)
-  University of Iceland (Iceland)
-  Dicle University (Turkey)

The EME4EU project is co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the ServicioEspañol para la Internacionalización de la Educación (SEPIE). Neither the European Union nor the National Agency SEPIE can be held responsible for them.

## EME 4EU

# English-Medium Education for European Universities

### CONTEXT

Global challenges like climate change and geopolitical conflicts are shifting the world order. The 2030 Agenda, a key tool for a holistic response, faces difficulties. The rise of anti-democratic and hate discourses poses an "ethical disaster", threatening core EU values of cultural diversity and democracy. Universities, as hubs of research and education, are crucial for training professionals to foster inclusive, democratic societies and combat discrimination.

### OBJETIVES

The project aims to promote the effective implementation of English-Medium Education (EME) in European HEIs by identifying successful practices and raising awareness of its role in university internationalisation.

### TARGET GROUPS

The project is addressed to:

- University lecturers teaching in English Medium Education (EME) stand to gain from innovative teaching methods and a repository of good practices, enhancing their capacity to deliver quality education.
- University lecturers outside EME programs ensures a broader perspective, enriching the project with diverse viewpoints
- Students in or interested in EME programs can provide feedback on their learning experiences, expectations, and needs, contributing to program improvement
- Decision makers in HEIs can benefit from the project's research-based recommendations, including uidelines offering data and analysis.

### EXPECTED RESULTS

The main project results include:

- A transnational comparative analysis on national policies on EME.
- A collection of Good Practices in EME.
- Guidelines, addressed to decision makers and policy makers, on the implementation of EME in European HEIs.
- An Online Training Package for Teachers on how to successfully implement EME, also via the integration of AI.
